

ERIC SAI KIT CHEUNG

SOFTWARE ENGINEER | FULL STACK DEVELOPER

eric.saikit.cheung@gmail.com | 646.637.1808 | ericskcheung.com | github.com/erocknine | [LinkedIn](#) | [Medium](#)

Compulsive coder, trilingual author, and business owner. A design fanatic, creative problem solver, and gourmet glutton.

SKILLS

Proficient: JavaScript, React, Redux, Ruby, Rails, HTML, CSS/SASS, Adobe Creative Suite

Practical Knowledge: TypeScript, Node, Express, MongoDB, Angular, AWS, Bootstrap, Material, Semantic

TECHNICAL PROJECTS

CURBALERT • May 2020 • [Frontend](#) | [Backend](#) • curbalert.netlify.app

Users can post images & details of unwanted items onto a public map. Built with Javascript, React & Redux, Ruby on Rails, PostgreSQL, React Router, Geolocation, Google Geocode & Directions, Leaflet, AWS S3.

- Engineered codebase synchronizing Geolocation & Google Geocode API to obtain user coordinates.
- Decoded polyline points from Google Directions API to draw directions between user and item.
- Collaborated functionality between AWS S3 Cloud & Rails Active Storage to store user images.

HANGOUTS • April 2020 • [Frontend](#) | [Backend](#)

Users can plan meetups at location calculated to be mutually close distance between all participants. Built with Javascript, React, Ruby on Rails, PostgreSQL, React Router, Geolocation, Google Geocode, Leaflet.

- Implemented YELP Search API for restaurant suggestions in RESTful Rails backend.
- Composed code to calculate midpoint location between groups of users from coordinate data.

KARA-OK! • March 2020 • [Codebase](#)

Users can search & save song lyrics to personalized playlists. Built with Ruby, Rails, PostgreSQL, Lyrics API.

- Architected RESTful Rails backend to store song & lyric data for authenticated user profiles.
- Integrated Lyrics API allowing users to search for songs with catch/rescue function.

EXPERIENCE

Freelance Web Developer / UI Designer • HIES INC • July 2020 - August 2020 • hies.netlify.app

Built company website for HIES Inc. using Javascript, React & Redux, SASS, PIXI.js, EmailJS, React Router.

- Designed UX/UI. Created & edited images using Adobe Photoshop.
- Organized company's list of over 20 services into 4 categories allowing website to be manageable, and added a keyword search feature for users to conveniently search services.
- Incorporated PIXI.js to run custom script creating realistic water motion effect on hero image.
- Utilized React Router for URL page routing, and EmailJS for personalized contact form.

Restaurant Owner / Sole Proprietor • BANZAI PHRESH • April 2016 – June 2018

Owned & operated restaurants at Smorgasburg Market, New York, and Ala Moana Mall, Hawaii.

- Resolved logistical problems including product quality management, restaurant design, inventory deadlines, and time management.
- Averaged 150 customers a day, maintained 30% profit margin with 4.5 star reviews on YELP.

Author / Writer • KINGS OF FORTUNE • 2014 – 2015

Self-published an action / adventure fiction novel.

- Awarded 5 stars on San Francisco Book Review, 4 stars on Portland Book Review, and featured review on Kirkus magazine.

Previously – Manager • BIGEYE SUSHI • 2019 & English Teacher • JIBUN MIRAI • 2013

EDUCATION

FLATIRON SCHOOL | NY

FULL STACK WEB DEVELOPMENT

February 2020 – June 2020

- Collaborative development with Javascript, React, Redux, Ruby, Rails, SQL, PostgreSQL

SOKA UNIVERSITY OF AMERICA | CA

BACHELOR OF ARTS

August 2008 – May 2012
