

ERIC SAI KIT CHEUNG

SOFTWARE ENGINEER | FULL STACK DEVELOPER

eric.saikit.cheung@gmail.com | 646.637.1808 | NY, USA | ericskcheung.com | github.com/erocknine | [LinkedIn](#)

A design fanatic, compulsive coder, and lifetime student.

SKILLS

Proficient • Javascript, React, Redux, Ruby, Rails, HTML, CSS/SASS, Adobe Creative Suite, Google Analytics

Knowledgeable • Typescript, Node, Express, MongoDB, PostgreSQL, AWS S3, Material, WCAG, JEST

TECHNICAL PROJECTS

FEMMECUBATOR • Developer • Collaborative Project

Mentorship hub for women entering tech industry • Javascript, React, Node, MongoDB, Material, JEST

- Built UI components with JEST unit tests, Storybook, WCAG, browser compatibility, and responsive testing.
- Agile work environment with daily standups, assigning user stories, PR code reviews, collaborative testing.

CURBALERT • Developer • [Frontend](#) | [Backend](#) • curbalert.netlify.app

Post details & locations of free items onto a public map for other users • Javascript, CSS/SASS, React, Ruby on Rails, PostgreSQL, AWS S3, Leaflet API, Google Maps API

- Utilized Geolocation & Google Geocode to chart user and item coordinates on Leaflet map.
- Displays directions between user & items by decoding direction polyline from Google Directions API.
- Incorporated AWS S3 Cloud with Rails Active Storage for storing user and item images on cloud.

HANGOUTS • Developer • [Frontend](#) | [Backend](#)

Plan meetups at location calculated to be mutually close distance between friends • Javascript, CSS/SASS, React, Ruby on Rails, PostgreSQL, Leaflet API, Yelp API, Google Maps API

- Implemented YELP Search API for restaurant suggestions in Rails RESTful backend.
- Composed logic to calculate midpoint location between groups of multiple users using coordinate data.

EXPERIENCE

Web Developer • MIKI HOUSE America • September 2020 – Present

Develop & design features on Shopify platform using Liquid, Javascript, and CSS.

- Utilized analytics to implement Upsell & Cross-sell (related products & gift) features.
- Refined search feature functionality, related products feature, and styled UI components to user stories.
- Performed unit and integration testing of features.

Contract Web Developer / UI Designer • HIES INC • July 2020 – August 2020 • hies.netlify.app

Designed & coded mock-up company website with Javascript, React & Redux, CSS/SASS.

- Organized content for data manageability, optimized SEO, and created services search feature.
- Modernized website with intuitive UX/UI styling with SASS, refreshed older images using Adobe Suite.
- Incorporated Javascript animation frameworks to create attractive visual effects on home page.

Software Engineer Student • Flatiron School • February 2020 – June 2020

Contributed to open source & collaborative projects using Javascript, React, and Ruby on Rails.

- Contributed to 5 collaborative projects building both frontend and backend.
- Utilized APIs and unfamiliar technologies to implement core features.

Restaurant Business Owner / Sole Proprietor • BANZAI PHRESH • April 2016 – June 2018

Owned & operated restaurants at Smorgasburg Market, New York, and Ala Moana Mall, Hawaii.

- Resolved logistical problems including product quality management, restaurant design, inventory deadlines, and time management.
- Averaged 150 customers a day, maintained 30% profit margin with 4.5 star reviews on YELP.

Previously | Special Manager • BIGEYE SUSHI • 2018 – 2019 | Cook • Lonestar Empire • 2014 - 2016

EDUCATION

FLATIRON SCHOOL | NY

FULL STACK WEB DEVELOPMENT

February 2020 – June 2020

SOKA UNIVERSITY OF AMERICA | CA

BACHELOR OF ARTS

August 2008 – May 2012
